

# THE EMPRESS EXPRESS

VOLUME VIII, No. 50

EMPRESS, ALTA. THURSDAY, June 2nd, 1921

Price: \$2.00 Per Year

## ANGELICAN CHURCH

Services will be held in the church, on Sunday, June 5, as follows: 7:30 p.m., Evening Prayer.  
11 a.m., Morning Prayer and Holy Communion at Cathedral.  
3 p.m., at Delta School.  
L. J. Tatham, Priest in Charge.

## UNION CHURCH

7:30 p.m. Regular evening worship in Chautauqua tent. Everbody welcome.  
Choir practice after Sunday School.

This district experienced a heavy frost, for the present season of the year, Friday night. In shaded places there was a thin coating of ice on the water, and tender garden plants were frozen off. In depression it was pleasing to note that the frost left its marks on the Russian thistles.

## Chautauqua Drawing Good Attendances

The local Chautauqua opened on Tuesday afternoon. The attendance was good and has steadily increased at the subsequent entertainments. The Wood Waters entertainers proved most enjoyable, and Marks, the violinist had the enthusiastic appreciation of his audience. Capt. Burie had a hard task in delivering his lecture on account of trouble with the electric lights and the noise of heavy rain on the tent causing interruption and breaking up his lecture badly. However, he was equal to the occasion, and delivered his message with facility. On the second day the Windsor Entertainers certainly lived up to their title of versatile artists. They possess excellent voices and are instrumental artists of no mean ability. Hon. Chas. Poole, the evening lecturer, with attention compelling eloquence and wit, kept the recreation of his auditors throughout an altogether too brief hour. Good attendances are looked for during the remaining days.

## Rapid Progress on Building of Creamery

Work on the erection of the Empire Creamery is progressing rapidly. The exterior walls, roof, etc., are now completed, and a very general comment is that it is—“Quite a large-sized building.”  
Mr. J. Humphries, the local manager, has taken up his residence in the “townsite” building. The rear offices of the building are being used temporarily for cream-buying purposes. The amount of cream coming into town is on the increase. Mr. Humphries has certificates and diplomas regarding his proficiency and knowledge of the various departments of the dairy business. We found him most obliging in explanations in regard to his work, and farmers and their wives, who are interested, would do well to pay the plant a visit.

## Atlee

The weather man has had a rougher for the past few days and is giving us a taste of the polar regions, or else he must be first cousin to an Eskimo.  
Mrs. H. G. Ahern spent several days in Calgary the past week. She was accompanied by her son Robert.  
Mr. Rannells from Chilmark, P. O., across the river, was an Empress visitor Thursday evening.  
Mrs. W. S. Henry, has gone to High River for a short visit with relatives.  
Mr. and Mrs. Dow, went to Medicine Hat, Wednesday, where Mrs. Dow has undergone a successful operation, and now is improving nicely.  
Crops around here are looking fine and did not suffer any loss from the hard frost Friday night.  
The Atlee baseball team journeyed to Cavendish, May 24, to try their luck, but Cavendish were too strong for the boys.  
W. H. Bunn, of the Parish & Halmbaker elevator, has received a car load of oats and the farmers are all busy stocking up on these.  
The majority of the people of Atlee journeyed to Bindloss on Sunday, to witness the baseball game between Bindloss and Atlee. Atlee got the worst end of it, the score being 5 to 11 in favor of Bindloss. The weather was altogether too cold for base

## Glevannah Lose To Empress

The result of the Empress Glevannah match was very pleasing to local fans. Certainly, the margin of 13 to 4 was much larger than expected. The matter of securing an efficient pitcher has been a problem for Manager Arthur. Last night's game, however, gave confidence to the team, and fans that Arch. Trail is capable of filling the position. There were many errors in the game and the margin between scores, was hard on the losing team. They are however a bunch of good sports and took their defeat well. McInnis, of Lloyd George umpired the game.

## Thank Jr. C.G.I.T.

On behalf of the Primary Department of the Sunday School, we wish to thank the girls of the Jr. C.G.I.T. Club for their donation of \$80—the proceeds of their tea held on Saturday, May 21.

One could not fail to notice and admire the systematic way in which the girls handled the work, under the direction of their efficient leader, Miss Noble. The money is to be used to help purchase kindergarten chairs for the little folks—a long felt need in the Sunday School.  
Mrs. E. Lacy, Supt. Primary Dept.; Miss Rowles, Asst.

ball and a number of errors were made which would not have been made in warm weather. The game was enjoyed by all, including players. The Bindloss boys are very lively and sociable and Atlee is looking forward to meeting them on the home diamond soon.

Mr. R. B. Colman, left this morning for Burdette, where he will spend the week getting his effects together and ship a carload up here, for his farm next week.

Ben Lee had hard luck Sunday, when returning from the ball game at Bindloss. He started home 7 p.m. with Mr. H. W. Bunn, Mr. S. Morris and Mr. Mark Bunn but when about five miles out of Bindloss his car stopped and refused the grade. Leaving the three weary passengers to walk he returned to Bindloss. Getting the car fixed he picked up his passengers just outside of the town. About five miles out and Lizzie again refused. The passengers returned to Bindloss and waited for the morning train.

## Cleveland Win At Lloyd George

On Saturday, the Cleveland team played their first league game at Lloyd George. They administered a severe defeat to their opponents to the tune of 15 to 5. D. Venance occupied the mound for Cleveland and proved himself an artist of no mean ability. Lloyd George did some good work but could not stand the severe strain. Scott and Blood filled their positions to the satisfaction of both teams. The following are the line-ups and scores by innings:

Cleveland. — A. Scott, c; D. Venance, p; J. Klucny, ss; C. Ennel, lb; B. Klucny, 2b; P. Smarik, 3b; J. Hay, rf; A. Shubert, cf; C. Blood, lf.  
Lloyd George. — M. Walker, c; R. McBain, p; P. Rany, lf; H. Harnett, W. Trenden; A. Trenden; W. Patterson, D. Juff; Kopersky.  
Cleveland 4 1 2 0 0 3 0 3 2—15  
L. George 0 0 0 3 0 2 0—5

## CLEVELAND YELL!

1, 2, 3, 4 Who are we going to yell for?

Cleveland!  
Rasul, dassel, zip boom ba, Cleveland, Cleveland, ra, ra, ra. Are we in it, well I guess—Cleveland, Cleveland, yes, yes, yes!

The Cleveland school was reopened on May 11, after being closed a month for spring vacation. Miss H. Wilson, of Calgary, who was with us two years ago, is in charge, and expects to teach until Christmas.

The pie social and dance held at A. A. Smuhli's, on Tuesday, was well attended. Mr. Smuhli acted as auctioneer, and induced the boys to some lively bidding. The net proceeds amounting to \$54.20, were given to the baseball club, who take this opportunity of extending their sincere thanks to all for their generous support.

## Thanksgiving Armistice Day

The conclusion of the war is to be celebrated by a public holiday, observed under the name of Armistice Day. A bill to this effect passed its final stage in the house of commons, Monday afternoon and no doubt is felt that it will receive senate approval. The holiday will be the Monday in the week on which November 11 (the day on which hostilities terminated) occurs, and Thanksgiving Day will be celebrated on the same day.

Should the bill pass the senate, Thanksgiving-Armistice Day will this year be celebrated Monday, November 7.

Out of the inkly storm clouds he comes, the arch-enemy of all good farmers. There is nothing you can do to stop him from reaping his destructive harvest. Though you cannot prevent such damage you can protect yourself against money loss by a

EXTRA STEPS MEAN DOLLARS SAVED

### Vandyne.

We are pleased to hear Mr. Butler is improving from his accident.

On Friday June 3, at Bryant school, a lecture on Home Nursing and First Aid will be given by Nurse Morken. Lantern slides will also be shown. All

are invited to attend.

Clyde J. Peto, has been the guest at the home of W. R. Hendry, during the past week.

Mr. and Mrs. S. Cox, are being congratulated on the birth of a daughter.

The Women's Institute met at the home of Mrs. L. MacAuliffe, Thursday afternoon.

R. B. Young, has been appointed Registrar for tp. 23, Range 2.

Mrs. Keeno, left for Calgary, Friday morning.

Mrs. M. Gordon, has as her guest her aunt, Mrs. McAllister.

Mr. and Mrs. G. H. England spent Sunday with Mr. and Mrs. H. E. England.

Mr. and Mrs. A. Butler, visited friends at Acadia Valley, Sunday.

Dick Johnston, was in Bindloss, Friday.

The attendance at the United Sunday School, on "Go-to-Sunday-School Sunday," was 160.

### Cavendish

R. R. Blythe, the Medicine Hat veterinary was busy in this district on May the 24, and 27.

The suffragette who broke the window in town, last May day, changed the luck all round.

Hatfield is getting his, these days, more dust storms than rain.

The regular U.F.A. local meeting will be held in the hall on Saturday, June 4.

The canvassers for the progressives, are confident that the farmers' candidate will be returned on the 27th. The farmers are rearing to record their votes for R. A. Gardiner.

Church services are being held regularly in the U.F.A. hall every Sunday night at 7.30 p.m. Everyone should attend.

A severe frost was experienced on May 27, which destroyed some of the gardens but the grain will soon show up again if the desired rain falls.

### IN MEMORIAM

In loving memory of Robert L. Galusha, who departed this life on June 2, 1920.  
Mrs. R. Galusha and children.

Seeding is all finished and summer fallowing is general here.

Hail insurance has included many side lines and takes more talking than usual to sell.

### C.G.I.T.

Jr. C.G.I.T. club met on May 26, in the Engelbrecht building. During the business meeting it was decided that there should be no more club meetings until the first of September.

After the regular business was attended to, the girls spent a social evening, reading and talking together.

The proceeds of the tea held on May 21 have been given to the Primary department of the Sunday School for the purpose of buying Primary chairs.

The girls wish to thank all who so willingly contributed to the tea.

### R.M. of Mantario

### Adjustment of Assessments

The Assessor will attend with the Roll, and the Comptroller for the Division will also be in attendance to consider any complaints in regard to valuations.

Tuesday, June 14th, at 7.30 p.m., at CONNELL'S CORNER, P.O.

Wednesday, June 15, at 2 p.m., at LANGHOLM SCHOOL.

Wednesday, June 15th, at 7.30 p.m., at CHESTERFIELD HALL.

Thursday, June 16, at 2 p.m., at C. E. MCKENZIE'S, R.E. 25, 26, 3

Thursday, June 16, at 7.30 p.m., at MAYFIELD SCHOOL.

C. EVANS SARGENT, Secretary-Treas.

## HON. T. A. CRERAR SAYS GET WILD LANDS LISTED

Leader of National Progressive Party Endorses Principle of Legislation Requested by Western Canada Colonization Association and Its Multitude of Supporters Throughout Manitoba, Saskatchewan and Alberta.

Hon. T. A. Crerar's statement reads: "The proposal of the Western Canada Colonization Association that an inventory of unoccupied land be taken under Governmental auspices in the prairie provinces, and that the owners of such land should be obliged to fix a price at which they would sell to incoming settlers, is, I think, an excellent one. The fact that the price to fixed would be made the value for assessment of the special Wild Lands Tax would keep the owner of the land down to a price that was reasonably fair. Land speculation, and for that matter speculation in other natural resources, has been one of the worst evils this country has suffered from for many years."

### Physician's Startling Discovery

Says People Can Live In Perfect Health With No Stomach.

That the stomach is a superfluous organ is the startling discovery of Dr. Victor Pauchot, reported to the Academy of Medicine.

Affirming that he has successfully removed the stomach from a woman fifty years old who had continued to live happily in perfect health, he reports that the operation also cured her of cancer.

"The stomach's action is purely preliminary," stated Dr. Pauchot. "The mechanism for the vital part of the digestion is in the small intestine and the intervening organs, the rectum and the bile. Therefore, providing the patient follows a light diet, the stomach can be dispensed with advantage."

### Prince Henry To Go In Army

Fond of Sports and Immensely Popular With Public.

Prince Henry, the third son of the King and Queen, who attained his majority on March 31, is destined for a military career. Although thrust somewhere in the background by his older brothers, the Prince of Wales and the Duke of York, Prince Henry is immensely popular with the public.

In stature he excels his brothers and is fond of sports and outdoor life. In pursuance of his inclination to be a soldier he went through the army class at Eton and afterward studied at Sandhurst, the English West Point. Last August the Prince was gazetted a second lieutenant of the King's Royal Rifles and at present is attached to the Thirtieth Hussars at Aldershot.

### Thieves Were Original

Entered Church Near Lille, France, and Stole Bell.

At a time when such a large percentage of French criminals are specializing in the theft of jewelry, pocketbooks, and the like, are easily portable luxuries of life, it is almost astonishing to hear of such originality as was shown by the thieves who devoted their attention to stealing a church bell weighing one and a half tons. Recently a considerable force of motor bandits entered the ruins of Essars Church, near Lille, France, and succeeded in hauling out a huge bell and placing it upon their lorry. They were surprised in the act by the night watchman, who made an attempt to resist the removal of the bell, but was knocked down by the bandits, who got clean away.

### The Water Spider.

A correspondent describes a peculiar spider that lives under water the greater part of its life. It builds a dome-like nest of silk among weeds in ponds and ditches, and comes out with air. In that strange house it lives and lays its eggs. In autumn it makes another nest at a greater distance below the first, and when the water, and, having sealed itself inside, it sleeps until spring. Taken out of the water, the spider looks like any other, but as soon as it is put back the bubble of air that it collects around its body makes it look like a ball of quills. It is the only spider that has taken to a wholly aquatic life, says the writer—Country Life.

### Seized Liquor Valued At \$40,000.

Sydney, N.S.—Seizure of liquor valued at \$110,000 marked the beginning of the bone dry liquor campaign here. The value of liquor seized in the Sydney district since May 29th now totals \$40,000 dollars.

W. N. U. 1368

It is generally agreed that Canada needs more people but an immigration policy can have permanent success if the people who are already living here are relieved of the artificial handicap under which they have labored in the past, of which these speculations in land is one. The more people that come into the country, the higher the land speculation rises. In the best interests therefore of the people of Canada the proposal that land held out of use should be made available for those who want to use it is sound and deserves the support of all good Canadian citizens. This step is in line with what the organized farmers of Western Canada have advocated for many years."

### Urges Development Of Peat Resources

Canada Has More Than 37,000 Square Miles Of Peat.

An Arnpur, peat specialist of the geological survey, informed the special parliamentary committee on Canada's fuel resources that there was no reason why Canadian peat should not replace coal for heating purposes throughout the Dominion. This view was based on the fact that the dependence upon United States mines and would release all coal importations for industrial purposes. Peat is a cheap, satisfactory fuel for cooking and open grates and for furnaces during the fall and spring months. So far more than 37,000 square miles of peat bog had been discovered and should be developed. One ton and a half of peat would give as much heat as a ton of anthracite.

The ease with which coal has been secured from the United States has secured from the development of peat. "That could be sold commercially at \$9.00 a ton, and if production was increased the price would become more favorable to the public. After peat was removed, the excavated area could be drained and used for agricultural purposes."

### Fort Norman Oil Find Is Outstanding Event

Officials Issue Warning However Against Mushroom Companies.

"Present indications are," says a statement issued by the department of mines, "that could be sold commercially at \$9.00 a ton, and if production was increased the price would become more favorable to the public. After peat was removed, the excavated area could be drained and used for agricultural purposes."

Officials of the department emphasize, however, that "the indiscriminate purchase of stock in many of the numerous oil companies is being formed with the avowed purpose of acquiring petroleum claims in the Mackenzie River basin and the northwestern part of the Dominion. Prospecting for oil under the best conditions is extremely hazardous and only trained geologists can be relied upon to make a correct appraisal. The haphazard staking of claims for speculative purposes is to be discouraged, and it will likely be found later that the great majority of these claims, acquired merely in the hope that they could be turned over to companies prepared to sink wells, will be left on the hands of the speculators with resultant heavy loss to the unfortunate stockholders."

Mr. James Longhead, minister of mines, said in a recent publication of a revised edition of the departmental report on the Mackenzie River basin. Inquiries are being received by the department from all parts of the world.

### Little Talk On Life.

"Life" said a talker, "is a piece of stuff given to each man to make a coat-rich velvet to some, narrow homespun to others. Each must cut his coat according to his cloth, and as he makes it so must he wear it, long or short, patterned or plain, wetting or ill."—Westminster Gazette.

### Another Monster Egg.

A Plymouth Rock hen, owned by Louis Laporte, of Somerset, has entered the field as competitor for the honor of laying the largest egg. The Winnipeg Free Press received a specimen of this four's ambitious offering, an egg measuring 9 1/2 inches around its longest circumference and 7 1/4 inches around the middle.

The art of wicker-weaving has been a hand industry for more than 3,000 years.

DAN MACNEILL,  
President Dominion Football Association.

### Canada To See "All Star" Football

Tour of Scottish Team Is Creating  
Wildest Enthusiasm.

When the party of six members of the Scottish All-Star football team arrive in Halifax on May 18th, the desire of all Canadian football men to have an O.M. Country professional, first-class team of players come to this country, will be replete.

The Dominion Football Association, through President Dan MacNeill and Secretary-Treasurer D. W. Roy, have completed final arrangements after several months' effort and development. In order that their way to the Atlantic seaboard to welcome the party on behalf of the Association which they represent.

The party of six members of the Scottish All-Star football team, who have been chosen for this long deferred missionary football enterprise to cement the ties of the Empire and bind Canada and Scotland closer to the bonds of sport and brotherhood, left Glasgow, May 10, and will sail from Liverpool on the Conard line, S.S. Gomerica. Upon their arrival in Canada, the Canadian National Railways will take charge of transporting the party to the Pacific coast and will be placed at their disposal by the National system. The forthcoming tour is creating the wildest enthusiasm in Canada and in addition to the matches played here, the programme will include four games in the chief cities in the States, matches in Canada will be played at Halifax on May 18th; Montreal, May 24th; Ottawa, May 28th; Hamilton, May 26th; Toronto, May 21st; Fort Worth, May 25th; and Sunday Times, June 4th; Regina, June 6th; Saskatoon, June 8th; Calgary, June 11th; Edmonton, June 14th; Vancouver, June 18th. On the return trip they will play at Prince Albert on June 28th; International, July 1st; Toronto, July 6th; International game at Montreal on July 9th. The four games in the chief cities of the United States will be played between 9th and 26th.

The officials, taking part in this patriotic football mission include Col. J. B. Wilson, D.V., chairman of the Third Lanark Club; Andrew Mitchell and Thomas Sloan, two of the directors; and Mr. Connell, who is manager of the undertaking. The lineup of the team of the Sunday Times, Craig Brown—Centre half-back of the Motherwell club, who came into the team when Cringan, the Celtic star, was forced out by a "beam in his hand" by Old Country experts, and is certain to make a lasting impression. John Marshall—centre, an occasional player from English clubs, expected to tour with the Scottish team. Plays for Middleburgh, and is credited probably the most versatile player in the right back of modern times. Starred in recent international.

James E. Gordon—Captain Scotland, who has been in the team formerly starred for Rangers but has been performing for Dunfermline Athletic during the current season. Probably the most versatile player in Britain. Starred in recent international.

Alex Bennett—Albion rover, one of the best and neatest dribblers, playing the game in Scotland. Made his great reputation while a member of the Glasgow Rangers, and should delight Canadian soccer fans.

Alex Troup—Dundee youngster who has been the sensation of U.S.

football season. He has been the star performer for the Dens Park outfit, but reached the pinnacle of fame when he featured a recent international game. "Is slippery as an eel."

Jimmy Quinn—On retired list. Gained fame as centre forward for Celtic and Scotland. "Of the aggressive, bustling type, he packed a wicked shot. Probably the best centre Scotland has produced. May play here occasionally."

James McMenemy—The dandy little inside winger, who contributed much to the success of Patrick Thistle in the recent Scottish Cup series. Formerly played for Celtic, and was frequently capped for Scotland. Known as the "Napoleon of Football."

Daddy Crossan—No Scottish team would be complete without one member from Edinburgh, "Auld Reekie's" star player. Fully grown, a back of the first water, rugged as he looks, but a veritable stunner in the pinch. Possesses a powerful kick. Alex McNair—Veteran right back of the Glasgow Celtic, hero of many international battles and considered one of the "brainers" defence men playing the game in the Old Country. Of the "old warhorse variety." Never beaten!

Jimmy Brownlie—Famous goalkeeper, who can be classed as a veteran. Has been faithful custodian for Third Lanark for many years, and has seen much service in international matches. One of the best exponents of last-line defence in the world—"Daddy of them all."

### Suitable Paper Allowance Is Quite Feasible

London Papers Say It Is Fit Subject For Conference.

Declaring that the renewal of the Anglo-Japanese treaty is a proper subject for the consideration of the conference of the empire premiers, which will be held in London in June, two leading London Sunday papers, the Observer and the Sunday Times, published interesting editorials arguing the need of effecting a new alliance between the United States and the dominions.

The Observer, alluding to certain American statements on the subject, says the first anti-American step which might be made under a new Anglo-Japanese treaty would break the British Empire. None of the dominions would ever consent to support the Mother Country in any action against the United States in the interests of Japan, but, on the contrary, would feel bound to actively resist, the Observer asserts.

The Sunday Times, which has no connection with the Japanese, is controlled by Northcliffe, takes a somewhat similar view.

### Last Office Like Her First.

London's oldest shopkeeper, who has been half of her 82 years, is in prison, has been given the mildest punishment that could be inflicted, by direction of the home office. As a young girl she was sent to prison for a long term for her first offence, and as a consequence her whole life was ruined. She has been convicted between 30 and 40 times. She has been sent to prison for twelve months, where she is to be kept in the hospital. Her first offence, like her last, was stealing a piece of silk.

### Entente Denies Receipt Of New Plans

London—Reports that new German propositions relative to the repatriation question had been received, which were current in this city, were denied by Louis Loucheur, minister of liberated regions.

## The Demand Is Growing In The British Market For Canadian Cattle

### Radium Is Lost In Mysterious Manner

Authorities at Hospital Decline to Give Any Information.

Radium valued at several hundreds of pounds, belonging to the Sheffield Royal Infirmary, has disappeared mysteriously.

The authorities at the hospital—a voluntary institution, supported by public subscription—decline to give any information beyond the fact that the loss is "due to the unfortunate error of certain people."

A search among the city's chemists for medical purposes at the University of Sheffield, and then transferred to the hospital.

But within the city's chemists with a special apparatus is stated to be contemplated.

In 1914 a quantity of radium worth about £1,000, which had fallen on the floor of a ward in the Royal Infirmary at Liverpool, was recovered from the hospital radiologist, and the buckets were sent on by one to the professor. The twelfth bucket contained the radium.

### Constructed Propellers From Crude Material

Engineer in Frozen North Used Dog Sleigh Boards and Elk Hide Gudge.

With a few dog sleigh boards, glue and some raw moose hide and a couple of blacksmith tools, W. A. Johnson, a Hudson's Bay Company steamboat engineer at Fort Simpson in the Northwest Territories, has constructed propellers with which one of the two all-metal Imperial Oil Company airplanes recently returned from Simpson to Peace River. The story is told this month in The Beaver Magazine of the Hudson's Bay Company.

The flying engineers broke their propellers at Simpson last month on their way to the Fort Norman fields and for the emergency repairs made by Mr. Johnson both of the machines would have been stranded until the opening of navigation on Slave Lake, about July 1.

The Beaver's correspondent, at eye-witness, states that both machines, crashed at Fort Simpson, smashed their big propellers. Wood on skis, which had been substituted for the usual wheels, gave way under one of the machines as it came down for a fourth overhaul. The second plane, with four men, escaped, devalued to continue the trip next week. Fort Norman. It is not known whether the plane was skidded on the snow with a broken undercarriage, splintered propellers and other damage. None of the occupants suffered injury.

### The Idle Young

Large Number Are Unemployed in United Kingdom.

An attempt is to be made to mitigate the grave danger attending the increase of the large numbers of unemployed juveniles who throng London's streets. At present 107,600 of these "young persons" are registered as unemployed in the United Kingdom. The Minister of Labor has issued regulations by which attendance at approved courses of instruction may be made a condition for the receipt of unemployment benefit.

### British Cooks Will Right Themselves

Among the passengers arriving on the Canadian Pacific steamer Metagama, were Sir George and Lady Parry. Alluding to the present conditions in Great Britain, Sir George expressed his opinion that there was no cause for alarm, but that the national coolness of character and stability of temperament might be relied upon to right all the troubles that surround the nation at present.

### New Governor Appointed.

Plans for the Winnipeg early development of the city, which is a part of Canada—which include retention of three-fourths of the oil discovered for the crown—were revealed by D. N. Finlay, Winnipeg, who announced that his brother, Oswald Sterling Finlay, had been appointed to the post.

### There is a steadily-growing demand for fat Canadian cattle in the English market, despite the embargo and the fact that it costs approximately 10 cents to ship a steer from Western Canada to England and pay for its slaughter within ten days of landing.

This statement was made by John Burns, general manager of the P. Burns Company, Ltd. In speaking of the English market, Mr. Burns said that for the past twelve years there had been no demand. Now, in spite of the very high freight rates, both from here to the seaboard and across the Atlantic, despite the fact that Canadian cattle arriving in England must be for "immediate slaughter," this market is developing and the demand exists.

"There is actually a shortage of fat cattle in Western Canada at the present time," Mr. Burns said.

"Within the last few years the marketing conditions for cattle in the west have been undergoing a great change. This has been brought about by the transition from the period of the big ranches to the conditions of today. The country is now more thickly settled and individuals hold smaller acreage. Not many years ago the big ranches were the predominating figure. Vast acreage, most of it held under lease, gave him a domain on which cattle could be bred by the thousands. Under such conditions it was natural that the marketing would naturally take place at one time in the year. As a result the great bulk of stock were sold to the packers in the months of September, October and November. It is now being followed by more numerous small herds of cattle and produced a healthier market condition. It meant that the packers were loaded up with stock at one period of the year, and received little during the other nine months. A glutted market and a fall in prices were almost always the result."

But with the settling of the country the big cattle ranches have gradually disappeared. More intensive cultivation has been followed by more numerous small herds of cattle and produced a better financial picture to the market. Today the cry of many of the men of Western Canadian farming is for even smaller farms. Gradually the market is being fed as the demand grows. Mr. Burns hopes that the time is coming when there will be a steady marketing of cattle over the greater part of the year. This will mean a reduction in prices and better conditions for the farmer, packer and consumer."

The man who held on to breeding herds of Mr. Burns' cattle found himself in the best position eventually. Previous to the war bacon importation had been followed by more in this order: Irish, Danish, Canadian, American. At the present time there is almost an equal demand for the products of the United States, Danish being coming in and the American product has lost much of its reputation owing to carelessness in preparation. There is a constant demand from English buyers for Western Canadian bacon and it cannot be filled today.

Although live shipments are being made to England at present and are being disposed of at some profit, conditions are far from favorable. In approximate figures it costs \$30 to ship an animal from Calgary to the seaboard, \$60 for ocean freight, and \$10 for slaughtering and other charges on arrival. Rates like these make it unwise to ship anything but the very best of the country's stock. Many say that the animals generally pick up at least some of the weight lost in the train journey and during the sea passage.

### No Matter What It Costs.

Germany protests that the action of the Allies in establishing a customs barrier at Rhine-Ruhr districts is a violation of the Versailles Treaty. Germany feels called upon to see to it that the Versailles Treaty is enforced at all costs—Kansas City Star.

### Chinese Hold Convention.

Three hundred Chinese, representing 65 branches of the Kuomintang (United States) League in Canada and the United States, recently held a convention in Vancouver. The league was organized by the Kuomintang. It maintains an aviation school at Esplanade, Sask.
